PAYFREIGHT.IO — EXECUTIVE SUMMARY & TERM SHEET

==========

1. EXECUTIVE SUMMARY

Protocol Name: Payfreight.io

Industry: Logistics Tech, Real-World Assets (RWA), Decentralized Finance (DeFi)

Target Market (TAM): $2.1 Trillion Global Freight Invoicing Market

Payfreight.io is a decentralized freight settlement and RWA liquidity protocol designed to solve the global logistics cash-flow bottleneck. Freight carriers routinely wait 30–90 days for invoice payment. Payfreight tokenizes these real-world freight invoices and leverages automated smart contract escrows to provide instant liquidity for carriers and reliable, real-world asset exposure for institutional investors.
